

Supplier Notice Opportunities

Definition & Value

Supplier Notice brings together European and UK public sector tender opportunities in one seamless interface. We find opportunities matching the product and service codes you have registered with Achilles and provide a daily email digest. This saves you the hassle of constant searches and ensures you are up-to-date with relevant opportunities. Supplier Notice has been completely rebuilt as 'Opportunities', with a modern interface and new customisation options. We offer value by:

- Matching your product and service codes to tender opportunities
- Proactively emailing you when any new tenders are published of interest
- Allowing you to track individual opportunities you are most interested in
- Providing options to customise your feed via followed saved searches
- Integrating two sources in one interface (OJEU and the UK's Find a Tender service)

Easy to Sign Up

Existing MyAchilles Users

- If you are already on MyAchilles you can sign up to Supplier Notice today. Go to Manage Subscriptions.

New to MyAchilles?

- If you are joining any community in MyAchilles, you can add Supplier Notice to your package when you subscribe

Core Benefits

Save Time and Resource

- We match your product and service codes to opportunities and automatically email you with any new suggested opportunities
- We save you time searching across two different websites by integrating source feeds from OJEU and Find a Tender UK into our product

Increase Business Opportunities

- Supplier Notice will support you in increasing business opportunities by alerting your business to Notices as soon as they are published
- Tailor your alerts by following and tracking opportunities of interest or following saved searches

Pricing

Supplier Notice is priced extremely competitively in comparison to alternative providers:
£405 + VAT per annum.
